

RockOn! 2018

The Next How To Workshop

June 16 – 21, 2018

Wallops Flight Facility

Register by May 2, 2018 at

tinyurl.com/rockon2018

The RockOn workshop is the next step beyond BalloonSats. During the workshop, teams of 3 build a sounding rocket payload from a kit in three days and launch it into space on the sixth day. Since 2008, 519 people have participated in the RockOn workshops and successfully built and launched 170 payloads to space. The hardware in the kit may be used on future RockSat (and possibly CubeSat) flights. NASA's Wallops Flight Facility will again be providing the rocket (two stage Terrier-Orion) and launch operations during the 2018 workshop. This hands-on workshop is about learning to build sounding rocket payloads, not rockets. RockOn is supported by the Colorado and Virginia Space Grant programs with significant cost sharing from Wallops and NASA Education. The registration for the 2018 RockOn workshop, is \$899 if you register by March 23, 2018 (\$999 after), which includes kit hardware (that teams take home), breakfast and lunch each day plus one dinner, t-shirt, handbook, software, and more plus a priceless experience. For more information on the workshop, please visit the website.
