

# SCIENCE AND TECHNOLOGY IN OUR CHANGING WORLD

A webinar series presented by

**Virginia Space Grant Consortium**

*Promoting STEM Education, Workforce Development and Research*

## OUR INTERCONNECTED EARTH: CLIMATE CHANGE, RECENT EVENTS, AND LOCAL IMPACTS

Join Dr. Patrick Taylor, Research Scientist, NASA Langley Research Center, on October 28, 2020 at 7:00 p.m. Dr. Taylor will use NASA observations to demonstrate the interconnected nature of our climate, discuss basic concepts of climate change, and put current events into the context of climate change.

## YOUR CONNECTION TO THE COSMOS: THE ORIGINS OF YOUR ATOMS

Join Dr. Ed Murphy, Department of Astronomy, University of Virginia, on November 4, 2020, at 7:00 p.m. Dr. Murphy will trace the history of our atoms, and those in the world around us, from the Big Bang to the present day.
