

PAID INTERNSHIP

Enjoy shooting and editing photos and video?

What's the Job?

The Virginia Space Grant Consortium is looking for summer interns to shoot and edit photos and video of week long STEM academies running from June to August. Academies take place on the campuses of NASA Langley, NASA Wallops, community colleges and universities around Virginia. Interns will photograph and shoot video of each day's events. At the end of each academy a final edited video will be shown to all attendees.
