Students will conduct hands-on summer research projects at NASA Langley Research Center or NASA Wallops Flight Facility.

These paid opportunities will be open to all Virginia Community College students pursuing a STEM major or STEM technician track.

Students work under the guidance of a NASA research advisor. The program is underwritten by the Virginia Space Grant Consortium and the Virginia Community College System.

Students must be rising sophomores or in their sophomore year at the time of the research experience. Students graduating May 2024 are encouraged to apply as well.

U.S. Citizen, at least 18 years old, STEM major, with at least a 2.5 GPA and enrolled a minimum of 6 credit hours.

Dual enrollment students are welcome to apply as long as all prior eligibility requirements are met.

Research Experience: June 3 – August 9, 2024

Applications Due: March 18, 2024

Reference Letters Due: March 25, 2024

April 2024: Notifications to selected students
