

Cybersecurity Teacher Professional Development Workshops

Join us for a cybersecurity professional workshop focused on aligning with the NIST Cybersecurity Framework and Virginia's VDOE standards.

Topic 1

Content Education

- VDOE-aligned curriculum and competencies
- Vertical alignment with introductory college curriculum

Topic 2

NICE FRAMEWORK

- Explore the NICE Framework
- Embed NICE Framework in curriculum
- Develop standards-aligned performance assessments

Topic 3

Certification & Credentials

- Determine certifications for course offerings
- Investigate community college credits for prior learning

Topic 4

Educational Pathways

- CyberSeek Interactives
- Community College Career Studies certificate, associate degree
- Transition to four-year university

Topic 5

Career Pathways

- Industry Partners Speak speakers
- Certifications needed for careers
- advancement opportunities
- Internships through VSGC CSIIIP

Workshops will cover **real-world case studies, exam prep (CompTIA ITF+, Security+, Network+), and guidance on earning credits via industry certifications.** Goals include boosting student success in cybersecurity skills, certifications, college credits, and career readiness. Teachers receive a \$750 stipend after the workshop and an **additional \$750 stipend** after instructional implementation during the year with **on-going support.**
