

STEM TAKES FLIGHT

at Virginia's Community Colleges

A NASA Professional Development Workshop for Virginia Community College STEM Faculty

Come join us for an exciting three day, residential workshop at NASA Goddard Space Flight Center Wallops Flight Facility on Virginia's Eastern Shore.

The program, sponsored by the Virginia Space Grant Consortium and Wallops Flight Facility, focuses on the integration of STEM in the NASA workplace with the purpose of assisting faculty in educating students on the importance of teamwork, technical and problem solving skills, while exploring missions supported by Wallops Flight Facility.

Breakfast, lunch, housing, and a travel stipend are provided!

***Apply online each Spring
Space is limited to 20 participants!***

Workshop dates are scheduled between Spring and Summer semesters
