

# STEM TAKES FLIGHT

NASA RESEARCH EXPERIENCES FOR  
VIRGINIA'S COMMUNITY COLLEGE STUDENTS

## NASA RESEARCH EXPERIENCES

Students will conduct hands-on summer research projects at NASA Langley Research Center or NASA Wallops Flight Facility.

These paid opportunities will be open to all Virginia Community College students pursuing a STEM major or STEM technician track.

Students work under the guidance of a NASA research advisor. The program is underwritten by the Virginia Space Grant Consortium and the Virginia Community College System.

Students must be rising sophomores or in their sophomore year at the time of the research experience. Students graduating May 2018 are encouraged to apply as well.

## STUDENT REQUIREMENTS:

US Citizen, at least 18 years old, STEM major, with at least a 2.5 GPA and enrolled minimum of 6 credit hours. Please visit website for application and additional details.

## 2018 PROGRAM DATES:

June 4 through August 10

## PARTICIPANT STIPEND:

\$5,000

## DEADLINE:

February 26
